Microsoft Office Suit

## •Objective

I have always been a creative person, as such the world of the arts has always been my niche. Whether it is my freelance design and illustration, or working in both a print shop and costume shop, I've always wanted to work in the arts.

## •Experience

Robinson Theatre- Costume Shop | **Stitcher and Designer**  
August 2019 - May 2024

My duties with the Robinson Theatre included aiding designers by aiding in fittings, assembling, or altering garments for actors, or between shows I would aid in organizing, labeling, and tracking parts of the stock for future productions. During my time with Robinson theatre I had also designed and worked for a number of productions.

Desert Dog Press- Print Shop | **Letterpress Technician**  
January 2023 - May 2023

My duties with the Desert Dog Press include sorting, researching, and organizing the letter-forms for the presses with over 263 individual fonts and hundreds of pieces in each set. My first major job with the press is to identify each and catalogue them all before then assembling a master book with a type specimen of each font before finally labeling every one for future uses in classes, or independent community operators making use of shop hours. The Letter Press shop is run through the Colorado Mesa University Art Gallery, and is open to both students as well as community members.

173PRINT- Print Shop | **Productions Assistant**  
August 2023 - May 2024

My duties with the 173PRINT, included maintenance of our Epson wide format printers, vinyl cutter, and laser cutter; as well as, printing assignments for students through our in house system which was set up to give students the real life experience of submitting their work for print. This included film for screen printing, and CMYK prints.
